PortTruckPass (PTP)

Featuring Terminal Information Portal System (TIPS)

PortTruckPass is a service provided by Sustainable Terminal Services, Inc. (STS) a nonprofit corporation created by marine terminal operators to promote secure, environmentally sensitive and efficient marine terminal operations in the Port of New York and New Jersey.

The PortTruckPass truck registration service implements Port Authority subrules as published in its FMC Schedule to No. PA-10, including revisions thereto. In addition, PortTruckPass provides a common portal, known as “TIPS”. TIPS is a tool for motor carriers and cargo interests to permit these entities to efficiently manage and deploy their resources when delivering or picking up cargo at the Port of New York and New Jersey.

Sustainable Terminals Services, Inc. (STS) is an equal opportunity company that is committed to providing services in a business environment that is free from discrimination and harassment. STS will take reasonable steps to ensure that persons with Limited English Proficiency or require reasonable accommodation have access to its services.
